El Tambo, Cauca

Regional Specialty Coffee

Region

Also known as the great agricultural pantry of the Cauca region, El Tambo municipality is one of the most important zones of coffee production in the country. Thanks to its climatic variety and to the Colombian Massif, it has an excellent coffee bean quality.

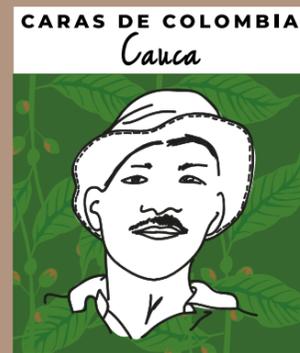

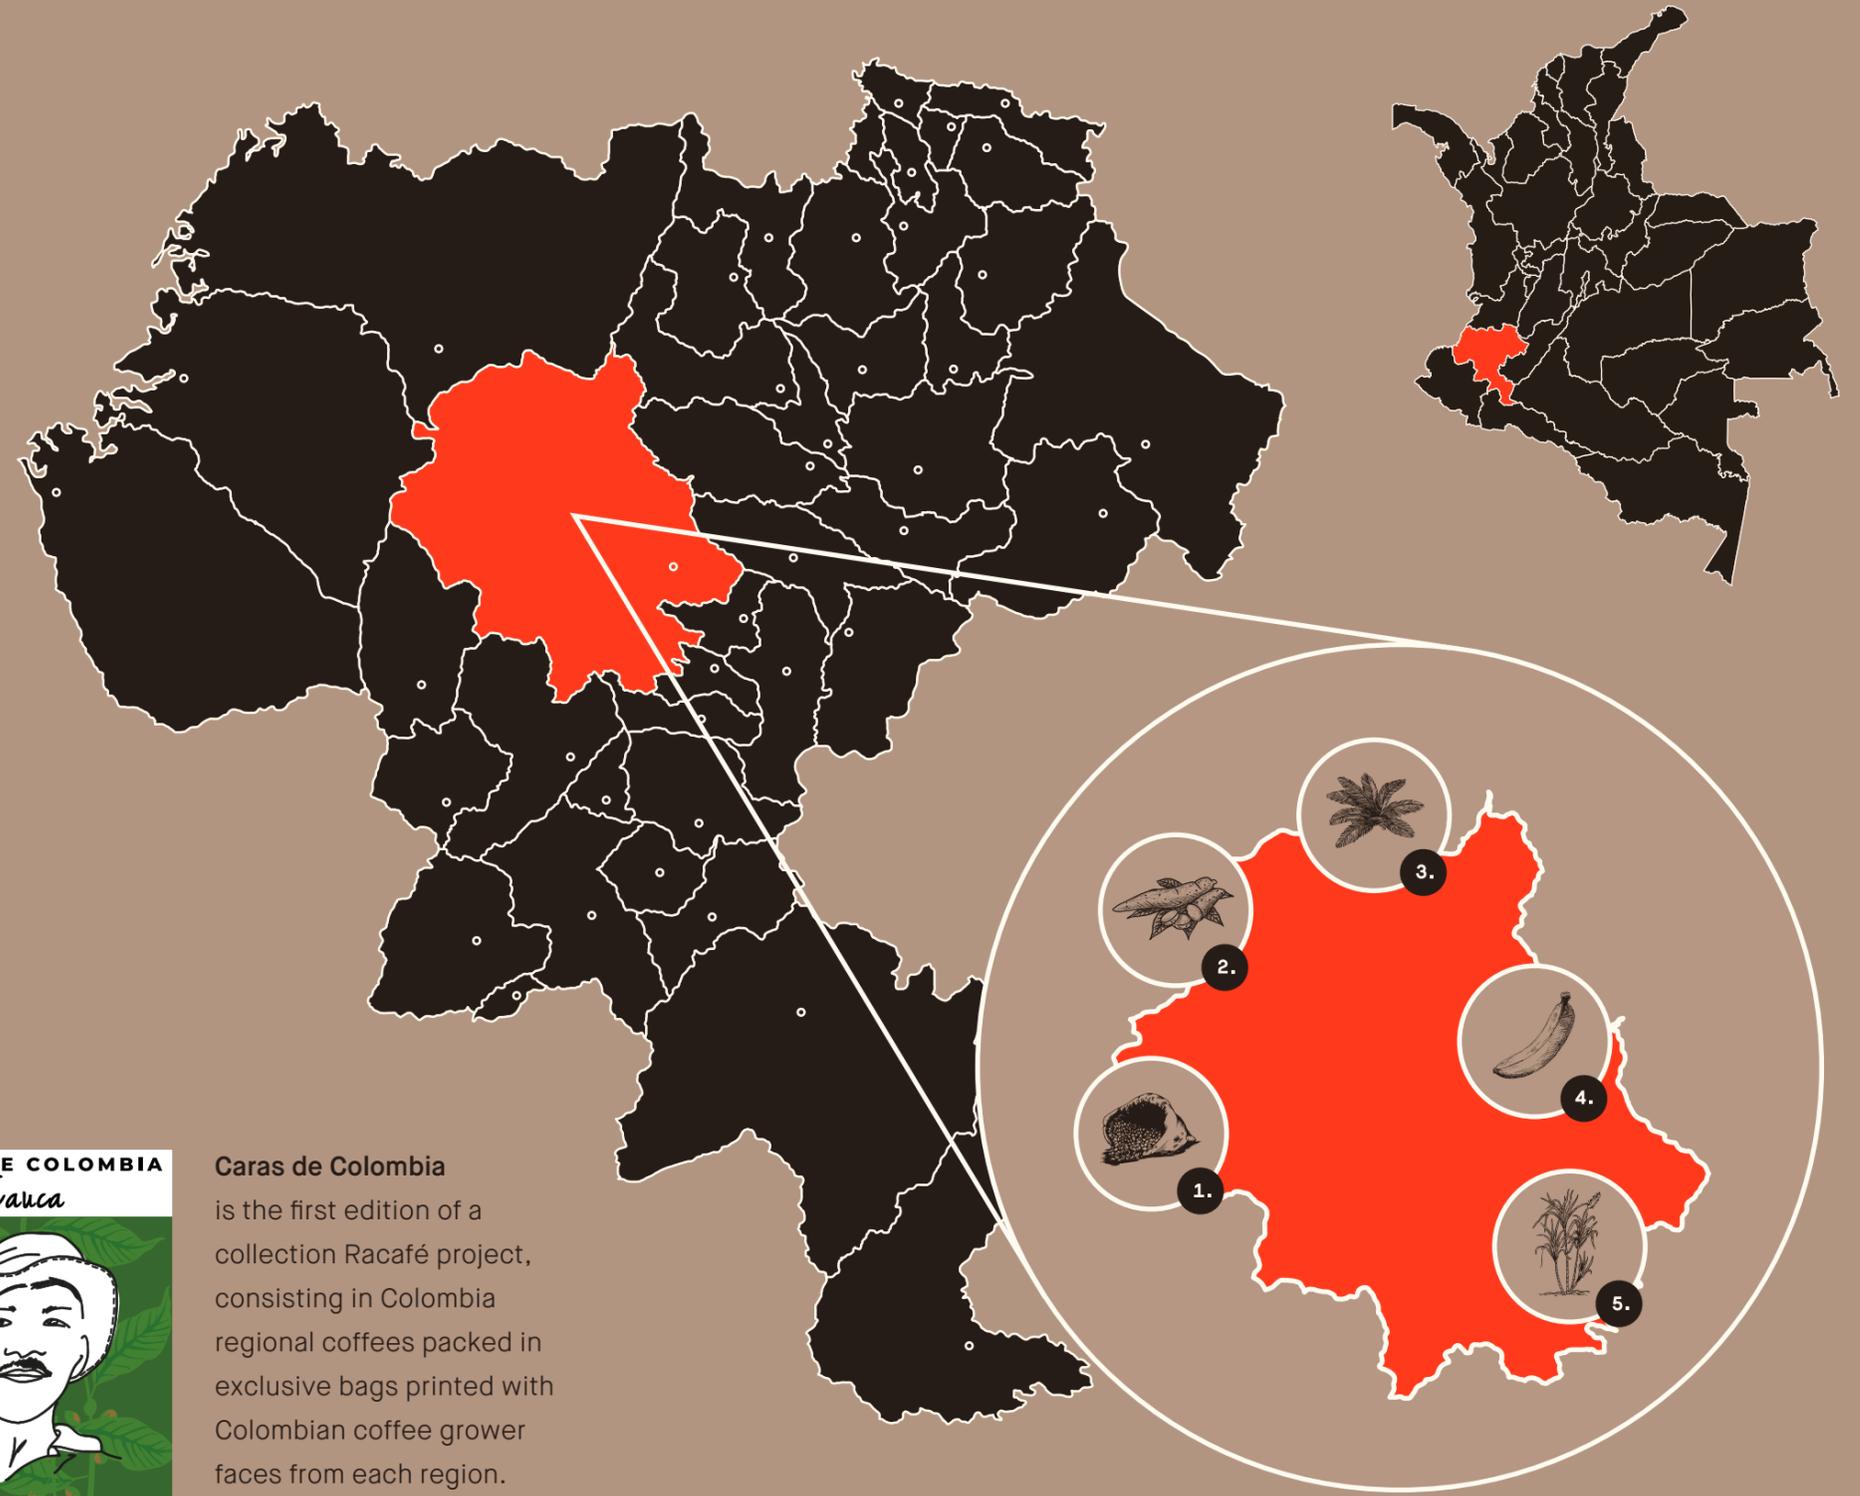

Walking into this territory means exploring high mountains surrounded by chontaduro, sugar cane, plantain, cassava and fique crops which, along with coffee, have contributed to the construction of peace from the violence that this municipality has suffered.
