Timbío, Cauca

Regional Specialty Coffee

Region

The Timbío municipality is located between rivers of natural wealth and forests filled with abundant flora and fauna. It is a place with over 500 years of history located in the Cauca region. Its fertile land is used to cultivate beans, plantains, cassava, corn and particularly coffee.

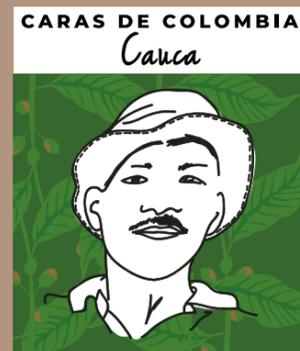

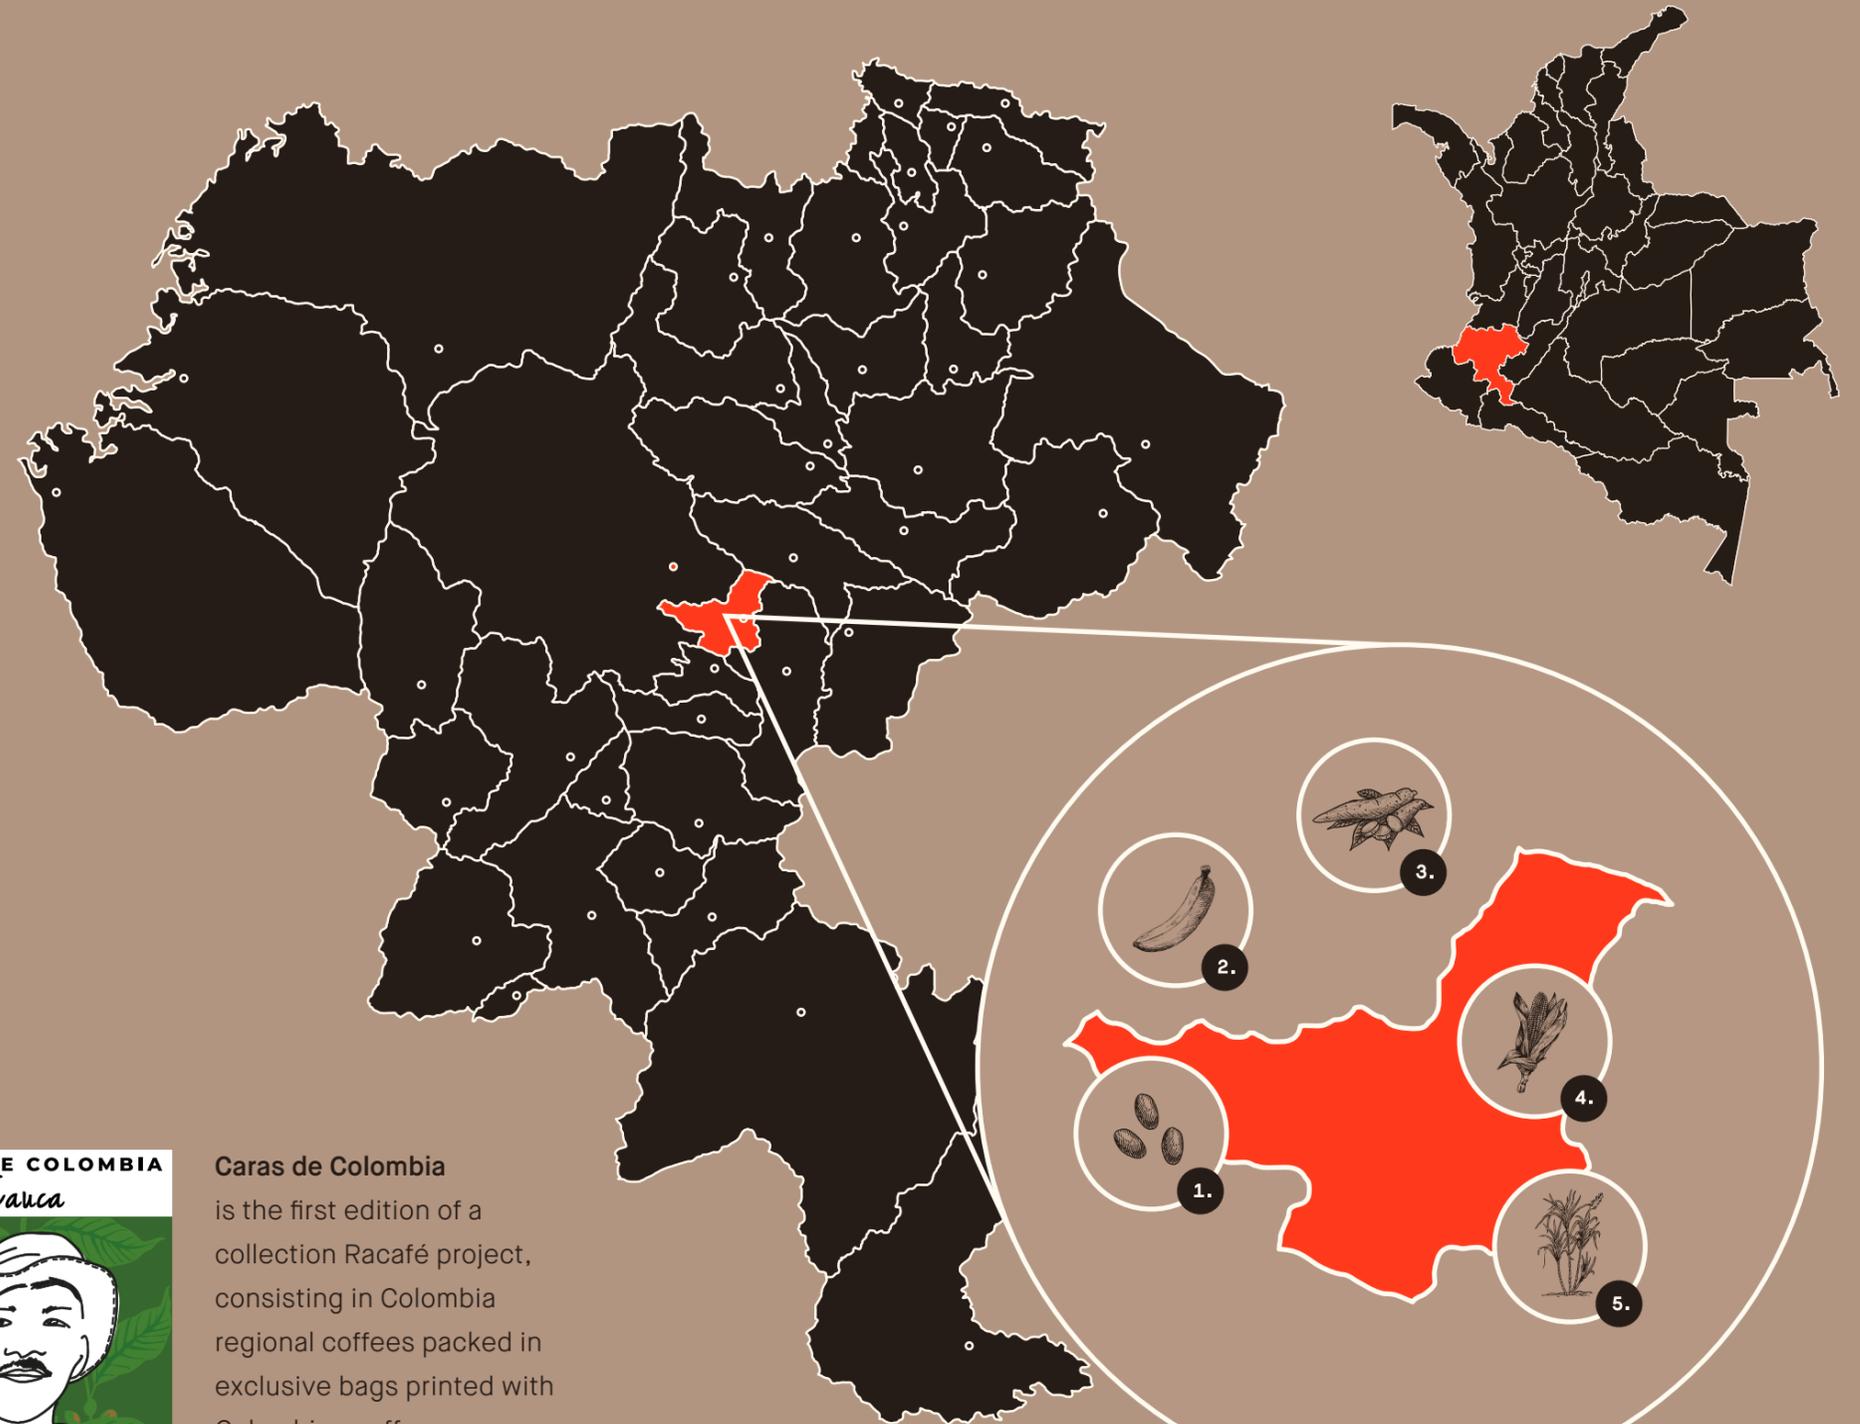

The features of coffee are enriched by the area, which make this type of coffee bean a complex product in terms of flavor, grace and the influence of the environmental factors offered by the volcanic chain offered by the Central Mountain Range.
